

COLORFIELDS

BIO

COLORFIELDS is a live Rebeltronica duo from Tulbagh, founded by Zap Dragons/ Streaks drummer Ash Read and united in partnership with his synth-wielding wife Kerstie. Combining elements of electronic dance music with an authentically live rhythmic core, the Colorfields sound draws inspiration from a wide variety of musical genres - ranging from the swirling psychedelic rock of classic bands like Pink Floyd to the live dance giants, Faithless, from the edgy sonic trip-hop of Massive Attack to dub and tribal World music beats - while the thought provoking content and social commentary draws much inspiration from Eco-anarchist philosophy. With a diverse musical landscape including dream pop, psychedelic rock, ambient dub and euphoric trance, Colorfields describe their genre as Pre-Apocalyptic Rebeltronica music and are a truly unique and original sound on the South African musical landscape.

Colorfields released their second album, DECADE, in March 2018.
